

ADVANCED INSTRUMENTS PSR-11-21 OXYGEN SENSOR FOR TELEDYNE ANALYZERS

\$95.00 ~~\$120.00~~

Low Price High Quality

Advanced Instruments 0 - 100% replacement oxygen sensor produces 295 - 625 micro-amp signal output has 12 months expected life with 9 months warranty and is suitable for Teledyne 3000PA, 3000PB, 3010PA, 3010PB, 3020P, 300P, 311PC, 320A, 320B, 320BR, 320BRC, 320BRCD, 320C, 320P, 320PD, 326A, 326B, 326RA, 326RB, 326RBN, 327RA, 327RB, 328, 328R and Insta Trans oxygen analyzers

SKU: N/A | **Categories:** [Oxygen](#), [Instrumentation](#) |

PRODUCT DESCRIPTION

Advanced galvanic type oxygen sensor with excellent stability and accuracy under stringent applications. All sensors are subjected to the most extensive stability test, output in air, 30 Inch of water column pressure test and stability at 100% oxygen.

- Replaces Teledyne B-1 competitive sensor
 - +/-2% full scale linearity
- Compensated temperature coefficient
 - 0 - 25 deg C storage temperature
